(By Associated Press)
Paris, June 17.—The majority of the members of the peace conference believe Germany will not sign the peace treaty, according to Marcel Hutin, in the Echo de Paris, who made a canvass of a number of the peace body leaders. Only one believed Germany would accept it, and he based his opinion that the German delegates are aware if they did not sign, peace will be imposed by force.

Miss Myne Wagers on the Job

Children in Kentucky under 14 years of age can not be given employment certificates, according to Miss Mayne B. Wagers, woman state labor inspector for this district, who has charge of the enforcement of the child labor law in this section of the state. A recent publication to the effect that children under 14 might be legally employed during the time the schools were not in session is declared by Miss Wagers to be an error. The law she says, positively forbids the employment of children under 14 years of age at any time in street work or in stores or factories of any kind.

**TWO BIG OIL SUITS
IN FEDERAL COURT**

Two suits were filed in Federal court at Frankfort Monday for injunctions to restrain the Southwestern Petroleum Company of West Virginia, and the Cliff Petroleum Company, of New York, from drilling for oil and gas on a tract of land in Lee county. One suit was brought by Frank Hudson and George Collins, of Lexington, and the other by the Gravity Oil Company, of Delaware. They contend that the Southwestern Petroleum and the Cliff Petroleum Company took possession of the land and drilled for oil and gas under a lease the companies secured from the Miller's Creek Lumber Company. The litigants claim they are the owners of the land and ask they be adjudged the owners of the oil and gas in and under the land and that the oil companies be required to account for all oil taken from the land and to pay for same.

By Raiding Americans After His Band Was Beaten—Carranza's Attitude Uncertain

(By Associated Press)
Washington, June 17.—Telegrams reaching the State Department today from various sources indicates a feeling of apprehension that the Villistas will make reprisals on Americans in that part of Mexico controlled by Villa after the United States troops routed his band near Juarez Sunday night.

The attitude of the Mexican government is apparently uncertain in the light of telegrams from Mexico City, saying government officials refused to discuss the Villa incident.

State Department officials today said no protest against the sending of American troops into Mexico to disperse Villa had been made on behalf of the Mexican government.

Quiet Again On Border

"The local organization will comprise the following ladies and gentlemen, and the Boy Scouts will assist the committee in every way possible, and the whole committee will meet in the office of L. P. Evans on Thursday morning at 9 o'clock when territory will be assigned to the following teams:

Messrs. C. F. Higgins, B. H. Luxon, Jno. W. Arnold, H. C. Rice, Elmer Deatherage, J. S. Stanifer, Percy Reid, Jonah Wagers, Arthur Todd, Shelby Hamilton and A. Dobrowsky.

Jim Spillman's Good Luck

James H. Spillman, of Mercer county, who has many friends all over Central Kentucky, has hit it rich in Texas oil lands. About eight years ago he purchased 620 acres of land in Texas at \$25 an acre. He has recently leased this tract of land to a syndicate for \$16,000 for one year. The land lies close to the noted Burke-Burnette and Ranger oil fields. The object of the lease is to bore for oil and if the liquid gold is found Mr. Spillman is to get one-eighth of all oil produced in addition to the price of the lease.

After the War of 76

An exchange says: We hear some complaint of conditions resulting from the war. But before complaining just read this letter written by Mrs. Abigail Adams, wife of the second President, on June 8, 1779:

"I have been able to supply my own family sparingly, but at a price that would astonish you. Corn is sold for \$4 a bushel. Labor is \$8 a day, and in three weeks it will be \$12. Goods of all kinds are at such a price that I hardly mention them. Linens are sold at \$20 a yard; the most ordinary calico at \$30 and \$40; broadcloths at 40 pounds (\$200) per yard; molasses at \$20 a gallon; sugar \$4 a pound; Bohea tea at \$40; meat at 6 and 8 shillings (\$1.20 to \$1.60 a pound); board at \$60 per week." And yet these pioneers, with full confidence in God and these United States, worked hard, utilized every bit of homegrown produce, and were content to live plainly. The glorious plenty of after years justified their faith.

**SMALL CYCLONE
NEAR RED HOUSE**

Severe Storm Late Monday Ruins A Number of Wheat Crops and Floods Otter Creek

A small-sized cyclone swept over the northern section of Madison county late Monday afternoon, and while there was no hail, heavy rainfall and a high wind played havoc with wheat and other crops through a mile or so of country. The wheat crop of Mr. Sam Todd is reported as practically ruined and Charles Davis suffered severe loss. Trees were blown across the Red House pike at various points and along a path for about a mile wide in the Red House and Union sections, the loss will amount to several thousand dollars according to reports to the Daily Register Tuesday morning.

Otter creek was flooded by the heavy rains. Dr. D. J. Williams, who was hastening in his car to a patient near Red House, was stalled by the high waters and says that he found a dozen other cars unable to cross. Dr. Williams boldly plunged into the stream with his machine but it became flooded and the engine as "killed" right in the midst of the waters. The necessity of a bridge over Otter Creek at Red House was never more apparent. In this connection, the official Automobile Association car, in its tour from Indianapolis to Florida, reported that this was the only creek of any size over which there was no bridge.

The rain and lightning and thunder storm was quite severe in town, considerable damage was done by the heavy wind. Mr. James S. Crutcher had two valuable mules killed by lightning at his farm on the Four Mile Road.

Two fine milk cow on the farm of John Parks were also killed by lightning. One was owned by J. C. Bowman, the well known contractor.

**COUNTY TEACHERS
PLAN YEAR'S WORK**

Enthusiastic Meeting Held To Discuss Helpful Features of Their Programs

The meeting of the teachers of the county called for Saturday by Superintendent Ben F. Edwards, proved a most interesting and instructive session in every way. There was almost a unanimous response to his call, and all seemed interested in the work for the year as outlined by Supt. Edwards. The suggestion regarding increases in salary from the County Board also struck a favorable chord.

Supt. Edwards covered devotional exercises, visiting of the patrons by the teachers previous to their work in the school room. He urged every one of the teachers to take advantage of the splendid courses of training offered by the Eastern Normal and said that after this year, the County Board will not favor any teacher who has not taken such a course.

After Supt. Edwards' splendid suggestions, an enjoyable talk was made by Phillip S. Brook, former principal of the Waco High School, now at Speedwell. Resolutions as agreed to by Supt. Edwards and the teachers for the entire year provide for the following:

A daily devotional exercise.

A bonus to be given to those teachers who comply with the visiting resolution previous to the beginning of the school term.

Organization of an Improvement League in every school district.

Miss Adelia Fox spoke on community work and was followed by L. H. Mills, of Badbouville, who gave an interesting talk on the duties of the teacher. Mr. Strong, of Scaffold Cané, spoke on the devotional feature and its influence on the child.

Rev. D. H. Starns, former principal of the Kirkville High School, gave an especially interesting address on the school as the center of interest, not only for the child but for the community at large.

Several members of the County Board of Education attended part of the session. The following teachers registered for the meeting:

M. Adelia Fox, of Berea, Mrs. Artie Abrams Robinson, of Big Hill, Mrs. Stella McKeehan, of Big Hill, Nannie R. Pearson, of Richmond; Mrs. Kathleen B. Broughton, of R. 3, Richmond; Nannie Bonny, of Richmond; Mamie Calico, of R. 4, Richmond; Mary Allison Tribble, of Waco, Laura Oldham, of Bybee; J. C. Hendricks, of Berea; J. M. Boen, of Berea, O. S. Still Fighting The Tax Law

For the purpose of determining whether or not the State Tax Commission has authority to order an equalization of assessments in a county after the increase ordered by the commission has been made, a suit was filed in the Franklin Circuit Court by C. C. Molloy, county attorney of Lyon County, against the State Tax Commission.

When the assessment for Lyons County was filed with the commission as provided by law the commission ordered an increase of \$150,000 to equalize Lyon County's assessment with the other counties in the State and bring the assessment up to 85 per cent of the cash value of the property. The Board of Supervisors complied with the order and shortly afterward a committee of citizens and taxpayers of Lyon County appeared before the commission with a protest. They claimed that the Board of Supervisors in making the raise had assessed the property unequally. The commission sent an expert into the field and the report of the expert sustained the contention of the protestors. Then the State Tax Commission ordered the Board of Supervisors to reassess the property on a uniform and equal basis. The suit brought was filed to determine the authority of the commission to make this order.

Hoover In Berlin

Herbert Hoover is in Berlin with a goodly company of assistants, and is going about the business of feeding that haughty city with his usual straightforward American methods.

He recently issued a statement which is worth quoting as an assurance to Americans at home that at least one phase of work for which they are making sacrifices is proceeding in a way to justify self-denial.

Mr. Hoover's warning reads as follows:

"America has no desire to restrict itself in order that its grain ships may be sunk in the Elba and its fat kegs may appear in the riots of a few thousand Spartans, or that its potatoes shall rot in warehouses because they cannot be transported. America has the good-will to save all from starvation, provided there is assurance of a state of order in Germany. Otherwise there will be no more supplies."

In commenting on this message a leading Berlin daily remarks: "This is Mr. Hoover's ultimatum, which just now for Germany is of equal importance with the peace conditions of the entente." And because they know he means it, they will accept it with equal docility.

LOYAL RED MAN SENDS GOOD WORD

Col. John E. Sexton has just received a letter from a former Richmond boy and member of Floating Canoe Tribe of Red Men congratulating him upon the honor conferred upon him at the recent gathering of Red Men in Lexington, and which will be of interest to many friends. It follows:

Charleston, S. C., May 19.
 Mr. John E. Sexton,
 Richmond, Ky.

Dear Chief and Brother:—
 I note that in the columns of the Daily Register where you were honored by being chosen one of the three representatives to the Great Council of the United States. While, of course, it is an honor in any way, but I feel as well as my other brothers of Floating Canoe Tribe, that it is an honor to the Red Men of the United States, to let such a faithful and honest worker go to such a meeting and be represented by one that is capable to fulfill any duty that may occur on yourself, therefore I feel that they could not have made a better selection had they roamed the world over. My only desire is that I would have loved to have been in Lexington and had the privilege to cast one more vote for what I call a 100 per cent Red Man.

In the next three weeks I will be able to join in our meetings at which time I am looking forward to one more "supper" before the state goes dry. While Redmanship does not amount to much in this state, yet I have met up with a few and have been given a cordial welcome by my fellow brothers, and as I have said before in our wigwag, that I would not exchange my present relations with Redmanship for all the other fraternal orders in the country.

During my stay here at the Port Terminal, I have been con-

President Reception

One of the most beautiful events of the commencement season at Eastern was the reception given by President and Mrs. Coates at their home in honor of the class of 1919. The home was attractively decorated with

Spanish moss which had been sent them from Arcadia, Florida, by their son, Aaron. Pink rambler roses scattered among the moss hangings and draperies rendered the whole effect very artistic. The lawn was lighted with colored electric lights and chairs scattered in groups perfected the arrangement for the convenience and pleasure of the guests. The school orchestra, which has contributed so much to commencement, furnished the music and, as usual, performed their part with great credit to themselves and to their directors. The function was attended by a large number of students and their guests, members of the faculty, local citizens and friends of the school, and was for all the most beautiful and happy event of the season.

Many Masters

We who serve the nation by providing its meat have many masters.

There are hundreds of thousands of stock raisers, asking for a quick market and a high price for their stock.

There are the millions of consumers looking to us, through tens of thousands of retail dealers, for a constant supply of meat at as low a price as possible per pound.

There are the thousands of wage earners properly eager to earn more.

There are the 25,000 holders of Swift & Company shares—8,000 of them women—who have a right to expect reasonable returns on their investments.

There are the hundreds of competitors, big and little, alert to discover, for their own advantage, any momentary breakdown or lapse in our service.

In all our activities we try to deal on a basis of equity, so that all may benefit and none be injured by the advantages that go with organization, wide scope, and efficient management.

And this service of Swift & Company is performed at a profit of a fraction of a cent per pound.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic.

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

CAMELS are as delightful to your taste as they are new. And, so satisfying that they meet every cigarette desire you ever have had.

Camels are unusual; in fact they're unlike any cigarette you ever smoked. That's because they're an expert blend of choice Turkish and choice Domestic tobacco, producing a quality that meets your taste as no other cigarette ever did.

Camels' expert blend gives that mellow-mild-body and frees the cigarettes from any unpleasant cigarettey aftertaste or any unpleasant cigarettey odor. You can smoke Camels as liberally as you like without tiring your taste.

You have only to get personally acquainted with the expert Camel blend to know that you prefer it to either kind of tobacco smoked straight!

For your own satisfaction compare Camels with any cigarette in the world at any price!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes, or ten packages (200 cigarettes) in a glassine-paper-covered cartons. We strongly recommend this method for the home or office supply or when you travel.

Heard About Town

Prof. John Price, of Danville, who has been head of the Center College English department for the past year, has accepted a chair in the University of Wisconsin and will assume his duties in Madison next September.

The Kentonia-Catron Corporation has given the State of Kentucky a tract of 3,400 acres on Pine Mountain. Harlan county, which is to be a State forest reservation, something for which State Forester J. E. Barton has been working ever since his department was created in 1912. It has no agricultural value and is not underlaid with coal, but lies thickly-wooded, in the heart of the mountain area where the Big Sandy, Cumberland and Kentucky Rivers have their source.

Kentucky will be represented when the Prince of Wales "rides the goat" into Master Masonry June 23. Capt. John H. Carson Black, of Barbourville, grand master of the Kentucky lodge, who will be unable to attend the solemn rites in London when Prince Edward Albert Christian George Andrew Patrick David, son of the king of England, June 23 to 30. The installation takes place on the Prince's twenty-first anniversary, at which time he becomes eligible to Master Masonry. The ceremonies will be participated in by distinguished members of the order from all parts of the world.

Walter Rice's Slayer

Sentenced To The Chair

Oscar Johnson, who killed Walter Rice, a railroad man well known here, at Paris some time ago, and was sentenced to death, was ordered taken to Eddyville for electrocution by Judge Stout in circuit court at Paris Monday. The defense had previously moved for a new trial. Johnson's attorney, Oscar T. Hinton, announced that he had no further evidence to offer and Judge Stout, after declaring that the accused had the benefit of a fair and impartial trial, that he could place little value upon the evidence introduced in his behalf as grounds for a new trial, and that he could see no evidence of prejudice or passion on the part of the trial jury said he could not do otherwise than deny the motion for a new trial. Johnson, who was accompanied by his mother, was then told to arise, and Judge Stout passed sentence, directing him to be taken to the Eddyville prison, and on August 15, 1919, to have a current of electricity passed thru his body sufficient to cause death. Before pronouncing sentence Judge Stout asked Johnson if he wished to say anything as to why sentence should not be pronounced. His reply given in an almost inaudible tone, was that he had nothing to say. The prisoner showed no emotion, and beyond the pallor due to his long confinement in jail, gave little evidence of feeling his position. Attorney Hinton gave notice of an appeal to the Court of Appeals, which will act as a stay of sentence.

LOW FARES TO

K. E. A. NEXT WEEK

Quite a number of Richmond and Madison county teachers are planning to attend the annual meeting of the Kentucky Educational Association in Louisville next week. Reduced fares to the meeting of Kentucky Educational Association this year may be secured by the certificate plan only. When ticket is purchased to Louisville a receipt or certificate must be required of the ticket agent. This receipt is to be presented to the Secretary of the Association, who will countersign it and present to a special agent in Louisville for validation. It may then be exchanged for a return ticket at only one-third the regular fare. The receipt is absolutely necessary with purchase of ticket to Louisville and no consideration can be given if receipt is not presented to Secretary of the Association.
